Versatile, motivated Programmer / Developer with training in coding and development with Java, Python, and SQL. Leverages exceptional technical, analytical, and logical skills to perform all development activities, delivering project deliverables within strict deadlines and to specification. Active team player, self-starter, multitasker and strive to consistently exceed expectations.

SKILLS

Certification:	LC101 Certificate, LaunchCode
Languages:	Python, Java, HTML, CSS, SQL
Applications / Tools:	Visual Studio 2017, IntelliJ, MY SQL , Microsoft Office (Word, Excel, PowerPoint), GitHub
Frameworks:	Spring Boot, Spring MVC, Hibernate

PROJECT EXPERIENCE

<https://github.com/HariniDiya>

Blogz:

- Python based web project that uses MY SQL ,HTML to implement a web interface for a blog database.
- It allows the users have their own blogs page, and visitors will be able to view blogs by author, or they can view all blog posts on the site by all authors.

Cheese MVC:

- Java based web project that uses Spring Boot, Bootstrap, and Thymeleaf to implement a dynamic web interface for a cheese database. Spring Boot components include but are not limited to JPA, and Hibernate. It uses a MySQL database to store the data which is populated.
 - It allows the users to add / remove and categorize the cheeses and also create menu's based on available cheeses
-
